House and Property Clearing

Geographical, Spiritual, and Energetic Property and Building Restoration

Purpose:

The purpose of the restoration is to bring all to peace and tranquility. It allows the people who own and inhabit the space now, to enjoy its benefits without geographical, Spiritual, or energetic, interferences, from the past history of the property and its buildings.

Process:

The restoration honors the human echoes of the past by hearing and understanding their stories, allowing the restless energy to rest and dissipate; guiding the human spirits of the past to the Light so that they can continue their journey; singing forgiveness and releasing love into all tragedy and pain that occurred. It also works with the geographic and spiritual elements, to bring them into a synergistic balance and opens a way for all beings and objects that are trapped to return to their proper dimensional space and time.

The Seal and Blessings:

This closes all gates, doorways, and reality mirrors, setting a seal of the One True Light and asking God to set an angel to watch over the properties and buildings

Spiritual

Will scan for Human spirits that have not found the light and have not moved on to their next step in their journey. Reveal the curses spoken and misuses done to the land.

The spirits that were dispelled:

Haunting

These are malevolent spirits, which are sent or drawn to your property or building for a specific dark purpose.

What was found:

Actions and clearings:

Human Echoes

Energy left behind by the humanity that has been connected to the property and buildings.

What was found:

Action and clearings:

Residual Emotional Energy Overlay

Strong emotion and feelings can leave an imprint on the property and buildings. They can be stored in the energy matrix until it is released

What was found:

Actions and clearings:

Geo Thermal

This energy can affect moods and sleep patterns and can cause anomalies like creaking and groaning.

What was found:

Action and clearings:

Geo Magnetic

This energy can affect the magnetic flux and flow of a human being as well create polarity shifts causing lethargy and lack of motivation and illness.

What was found:

Actions and clearings:

Water Dynamics

The directional flow of water running through the property and what the water passes through emotionally and energetically,; can make a difference to the inhabitants living on the surface of the property.

Example: If the property matrix is negative then when the water flow under the property has any negative emotional or energetic charge then that negative energy will be drawn to the negative matrix

Action and cleansings:

Gates and Reality Mirrors

Gates and reality mirrors were formed in ancient times. They open to places and energy spaces that range from far different forms our reality, to very similar. Even though the knowledge of these energy devices was mostly lost, there are still some that understand and employ these energy devices. A gate or reality mirror can operate for thousands of years without maintenance. These gates can be open in a dwelling or on a property and allow access for/to beings that cannot be seen with the naked eye. Some of these being are malevolent, with very dark purposes, skewing the reality fabric of a property and building and affecting in numerous ways those that inhabit the space.

Blessing

I speak a final cleansing from the sky to the deep places underground; that this place now be seen as a place of blessing and hope.

I now seal this property and all its buildings with the seal of Light and Love from the One True God.

I speak joy and laughter, health and wellness, and prosperity to the owners and inhabitants of this property.

So be it, so be it, so be it.

As it is written let it be done

In the name of the Uncreated One, the One True God.
