

What is the Aspect of Servant within Ministry?

As we travel this road together, to understand the servant's heart of the Creator of all Existence and the deep call to the ministry of Servant, we will examine and expand 7 of the 21 aspects that make up this ministry. As each opens to us, we will travel deeper into the servant's heart space of the Creator of all Existence. My wish is that we will begin to understand what it is to move as a servant, within TRINITY's design, for you to move within this ministry, knowing the nature that flows from TRINITY. Helping you move and be the servant you are to be, growing within the understanding that- being a servant does not mean a "slave" or a "lower-class" person. Instead, meaning a being that is an extension of TRINITY, showing to those you serve the true nature of the servant that flows from TRINITY's heart to all creation. TRINITY's servant in this study is defined by strength, courage, long-suffering and the ability to undergird, support and provide what is necessary for those being served. To excel and become the being TRINITY wishes.
